

EXTERIOR ALTERATION COMMITTEE MONTHLY REPORT

Report Period: May 2024

Committee: John Joseph, Chair; Donald Barnes, David Bell, Marilyn Corazza, CAM

Good morning residents and board members,

As our northern residents have migrated to other climates our approvals and requests have fallen off considerably for the month.

We have accomplished the following transactions:

- 5 approved by committee,
- 6 approved by the office (ABOs),
- 3 with pending permits,
- and 2 permits received for work to be accomplished.

We anticipate a somewhat slower request count for the next few months until our residents begin returning.

With this available time the committee will be diligently revising the EAR charter.

Respectfully submitted,

John Joseph, Committee Chair
